Healthcare®

\*2022: Average allowed amounts charged by UnitedHealthcare Network Providers and not tied to a specific condition or treatment. Actual payments may vary depending upon benefit coverage. (Estimated \$2,500 difference between the average emergency room visit, \$2,700 and the average urgent care visit \$185.) The information and estimates provided are for general informational and illustrative purposes only and are not intended to be nor should be construed as medical advice or a substitute for your doctor's care. You should consult with an appropriate health care professional to determine what may be right for you. In an emergency, call 911 or go to the nearest emergency room.

\*\*Virtual primary care are services available with a provider via video, chat, email, or audio-only where permitted under state law. Virtual primary care services are only available if the provider is licensed in the state that the member is located at the time of the appointment. Virtual primary care is not intended to address emergency or life-threatening medical conditions and should not be used in those circumstances. Services may not be available at all times, or in all locations, or for all members. Certain prescriptions may not be available, and other restrictions may apply.

\*\*\*The Designated Virtual Visit Provider's reduced rate for a 24/7 Virtual Visit is subject to change at any time. Data rates may apply.

24/7 Virtual Visits is a service available with a Designated Virtual Network Provider via video, or audio-only where permitted under state law. Unless otherwise required, benefits are available only when services are delivered through a Designated Virtual Network Provider. 24/7 Virtual Visits are not intended to address emergency or life-threatening medical conditions and should not be used in those circumstances. Services may not be available at all times, or in all locations, or for all members. Check your benefit plan to determine if these services are available.

Members of HMO plans in California should initially consult with their PCP in non-emergent situations to better understand which care options are best suited for their situation.
